Art Unit: 2834

## **DETAILED ACTION**

## Allowable Subject Matter

- 1. Claims 1-28 are allowed.
- 2. The following is an examiner's statement of reasons for allowance: the record of prior art does not show a generator comprising a rotor including a first inner band located around at least a portion of each of the end-turn segments, the inner band having at least a near end, a distal end disposed opposite the near end, and a thickness, the near end located proximate the lamination core, and the thickness of at least a portion of the first inner band decreasing from at least a point proximate the distal end to at least a point between its distal end and its near end, and a first outer band located around at least a portion of the first inner band, the first outer band having at least a near end, a distal end disposed opposite the near end, and a thickness, the first outer band near end located proximate the first inner band near end, and the thickness of at least a portion of the first outer band increasing from at least a point proximate its distal end to at least a point between its distal end and its near end as shown in claims 1 and 11. Claims 19-28 are method claims. However, these claims also show the support structure of the rotor end turns similar to claims 1-18. As a result, they are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably Application/Control Number: 10/633,282 Page 3

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dang D Le whose telephone number is (571) 272-2027. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Darren Schuberg can be reached on (571) 272-2044. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
